Selfie mirror

You can check your framing with the mirror next to the lens.

Close-up lens attachment

Setting the brightness adjustment dial to the high-key mode mark allows you to take pictures with a softer impression.

Brightness adjustment dial

instax mini 9 automatically determines the best brightness for taking a picture, and informs you of the suitable setting by lighting the corresponding lamp. Turn the brightness adjustment dial to the position (mark) of the lit lamp.

SITUATION :

You work for Amazon's customer service. A client is calling you to obtain information about this product. He is hesitating to buy the product. Prepare the arguments to convince him.

You can insist on :

- the price
- the return options
- the star rating
- the large choice on the website
