Live local. Work Lokaal.  
Coworking in the heart of St. Clair West

**SAFE BY DESIGN**

*Lokaal offers a safe, clean and physically distanced workspace. We've stepped up our cleaning and disinfecting protocol as well as our space & terms of use policies to ensure the health and well-being of our members. Throughout the COVID health crisis, we will not be offering Day Passes and our space will be open to members only and in a limited capacity to permit physical distancing.*

**Lokaal** is a shared coworking space for entrepreneurs, freelancers, and remote-workers who want to belong to and work locally, in a collaborative environment filled with other talented minds. An integral part of the creative hub that works in this building, Lokaal is a bright, light-filled place to get it done. In response to the challenges of #WFH brought about by COVID, we've launched our "**Tag Team**" coworking plan for couples (two people from the same address) who can share a single membership and take turns escaping when they need that important focus time. Group Events

Private Phone Booth

Big Screens

Security

## Situation

You work for Lokaal, a company offering coworking spaces. You have an appointment with the entrepreneur of a start-up company who needs part-time working spaces for his/her team but is reluctant due to the Covid-19 pandemic.

Try to convince him/her to become a member using the following hints:

- The advantages for his/her team of being in a coworking environment
- The services offered
- The secure spaces and pandemic facilities.
