1. Now, it's time for a brief History of the United States of America ...
2. Hi, boys and girls! Ready to get started?
3. Once upon a time, there were these people in Europe called 'pilgrims' and they were afraid of being persecuted.
4. So they all got in a boat and ...
5. sailed to the New World where they wouldn't have to be scared ever again.
6. But as soon as they arrived, they were greeted by savages
7. They got scared all over again. So they killed them all.
8. They started getting frightened of each other. So they burned witches.
9. In 1775 they started killing the British, so they could be free.

10. And it worked.
11. But they still didn't feel safe.
12. So they passed a second amendment which said every white man could keep his gun.
13. The white people back then were also afraid of doing any work. So they went to Africa,
14. kidnapped thousands of black people,
15. brought them back to America,
16. and forced them to work very hard for no money.
17. I mean zero dollars. Nothing, nada, zip.
18. After two hundred years of slavery, the black people now outnumbered the white people in many parts of the South.

19. Samuel Colt, in 1836, invented the first weapon ever that could be fired over and over without having to reload.
20. The North soon won the Civil War and the slaves were free.
21. But the freed slaves took no revenge. They just wanted to live in peace.
22. But you couldn't convince the white people of this.
23. So they formed the Ku Klux Klan. In 1871 the Klan became an illegal terrorist organization
24. Another group was founded: the National Rifle Association.
25. It was a great year for America, the KKK and the NRA.
26. They had nothing to do with each other and this was just a coincidence.
27. One group legally promoted responsible gun ownership and the other group shot and lynched black people.

28. And that's the way it was all the way till 1955 when a black woman broke the law ...
29. by refusing to move to the back of the bus.
30. Black people everywhere started demanding their rights.
31. All Hell broke loose.
32. They all ran fleeing to the suburbs, where it was all white and safe and clean.
33. And they went out and bought a quarter of a billion guns.
34. And put locks on their doors, alarms in their houses, and gates around the neighborhoods.
35. And finally, they were all safe and secure and snug as a bug.
36. And everyone lived happily ever after.
